

Australia's best luxury off-road camper trailer for over 25 years.

ULTRA LIGHTWEIGHT | UNSURPASSED DURABILITY | ULTIMATE LUXURY

# YOU DON'T JUST BUY AN ULTIMATE

YOU BECOME PART OF AN EXCLUSIVE CLUB OF ADVENTURERS.

Australia is the most desolate country on earth. Harsh, yet stunningly beautiful and captivating. It is also home to the oldest civilised culture on earth. The only true way to experience Australia is by immersing yourself in the landscapes and rich culture at the heart of this country. The only way to get there is by vehicles - and vehicles that are BUILT AUSTRALIAN STRONG.

For nearly three decades, Ultimate camper owners have been at the forefront of exploring this ancient land, documenting and sharing their journeys with the rest of the world. Ultimate Campers Australia has closely followed these trailblazers, listening and working with them to

fine-tune their campers, experimenting and innovating to help them go deeper, further and for longer. To us, they are not customers, they are true adventurers and part of the Ultimate family.

# THE ULTIMATE RANGE

The 5 star off-grid camper trailer is here in the form of the Ultimate Xscape. The power and storage options are unrivalled with a 24v electrical system, 600w of solar power and 100 litres of water storage making this model the perfect way to go off-road and off-grid for as little or as long as you want. Still the same light weight, aerodynamic and nimble off-road camper trailer you expect from Ultimate Campers.

Just like its predecessor the X25, the Xscape is another award winning camper trailer to roll out of Ultimate Campers. Winning 'Most Innovative' and 'Best Compact of the Year' and overall 'Camper Trailer of the Year 2023' in the 2023 Camper Trailer of the Year awards.

Every so often, innovation takes a massive leap forward.

LIVE SIMPLY | LUXURY OUTDOOR LIVING

## WEATHER PROTECTION

Connect with nature in complete comfort with the 360 and 180 degree Tent Canopy System

The newly designed 360 and 180 weather protection options provide more space, higher ceilings, greater comfort, better air flow, faster and easier setup / pack down time and up to 50% larger windows to experience more of the outdoors with indoor comfort. The system also includes ultra-strong, flexible, lightweight poles which quickly lock into place for ease of use.

The sleek octagonal canopy (360 model) and inline front and rear awning (180 models) are made from super premium canvas with a high-tech silver protective coating. This silver coating has been adapted from the mineral mica – which offers mildew resistant properties and inherent thermal properties, working to effectively resist the heat and reduce the temperature from entering the camper. Furthermore, the canopy has been developed with a lighter weight durable canvas base that naturally tightens when wet to reduce sagging and pooling in the rain.

BREATHING NEW LIFE INTO THE XTERRAN MODEL.

Let the adventure begin! We are so excited to announce the rebirth of our beloved Xterrnan model. Get ready to explore the world with this trusty companion.

Nearly 10 years ago Ultimate Campers launched the Xterrnan. Tough, practical and durable. Now we relaunch this classic with more features and the wider body and track ready to tackle any terrain you want to drive

# NEXUS

We've raised the bar once more with this flagship camper trailer. It has everything you have come to expect from an Ultimate off-road camper trailer – light weight and nimble yet extremely durable with aerodynamic contours, leading to a more fuel-efficient adventure, surprisingly spacious and incredibly comfortable.

# GT

The Grand Tour was a 17th- and 18th-century right of passage, to head out to experience all that Europe had to offer. A Grand Tour could last anywhere from several months to several years.

The 21st century Australian equivalent is the outback off-road adventure. At Ultimate Campers, the tradition of the Australian Grand Tour is in our DNA. It is why the business was started. To celebrate this traditional and all who undertake it, we've created the brand new GT.

Vehicles with the GT badge are synonyms for high speed and long-distance travelling, combining performance and luxury. The GT surpasses this distinction. It has everything you have come to expect from Ultimate and more.

In addition to the list of standard luxury features, the GT boasts our newly designed 360-degree canvas tent, giving you greater space, greater airflow, greater comfort, and of course greater ease and speed to setup. Another legend is born.

# XPLOR

The Ultimate XPLOR builds on the stylish looks of its predecessors and includes great new standard features. In addition to superior levels of comfort and eye-catching design, the XPLOR remains true to the legendary off-road performance of Ultimate off-road campers. It's lightweight and has aerodynamic contours that ensure the XPLOR provides an unbelievably fuel-efficient off-road adventure. With a quick set-up, a genuine king-size bed and a galley and lounge with ample space, the Ultimate XPLOR is ready to take you to the amazing places others can only dream about.

# XTRK

The Ultimate XTRK is the embodiment of restraint and core spirit of adventure that has made Ultimate the industry pinnacle in off-road campers for over twenty-five years. Stylish aerodynamics and clever ergonomics is pared back for optimum tare weight performance to ensure that the XTRK provides an unmatched combination of fuel efficiency and comfort. Being streamlined for great access to remote terrain whilst maintaining all premium necessities you'll require for an unforgettable waterproof and dust-proof adventure.
