ULTIMATE
OFF-ROAD CAMPERS

Welcome to the Ultimate Family

Adventure isn't just something you do – it's who you are. For more than 30 years, Ultimate Campers has been built by explorers, for explorers. When Bronwyn and I took the reins, our goal was simple: to honour Ultimate's legacy while pushing the boundaries of off-road camping.

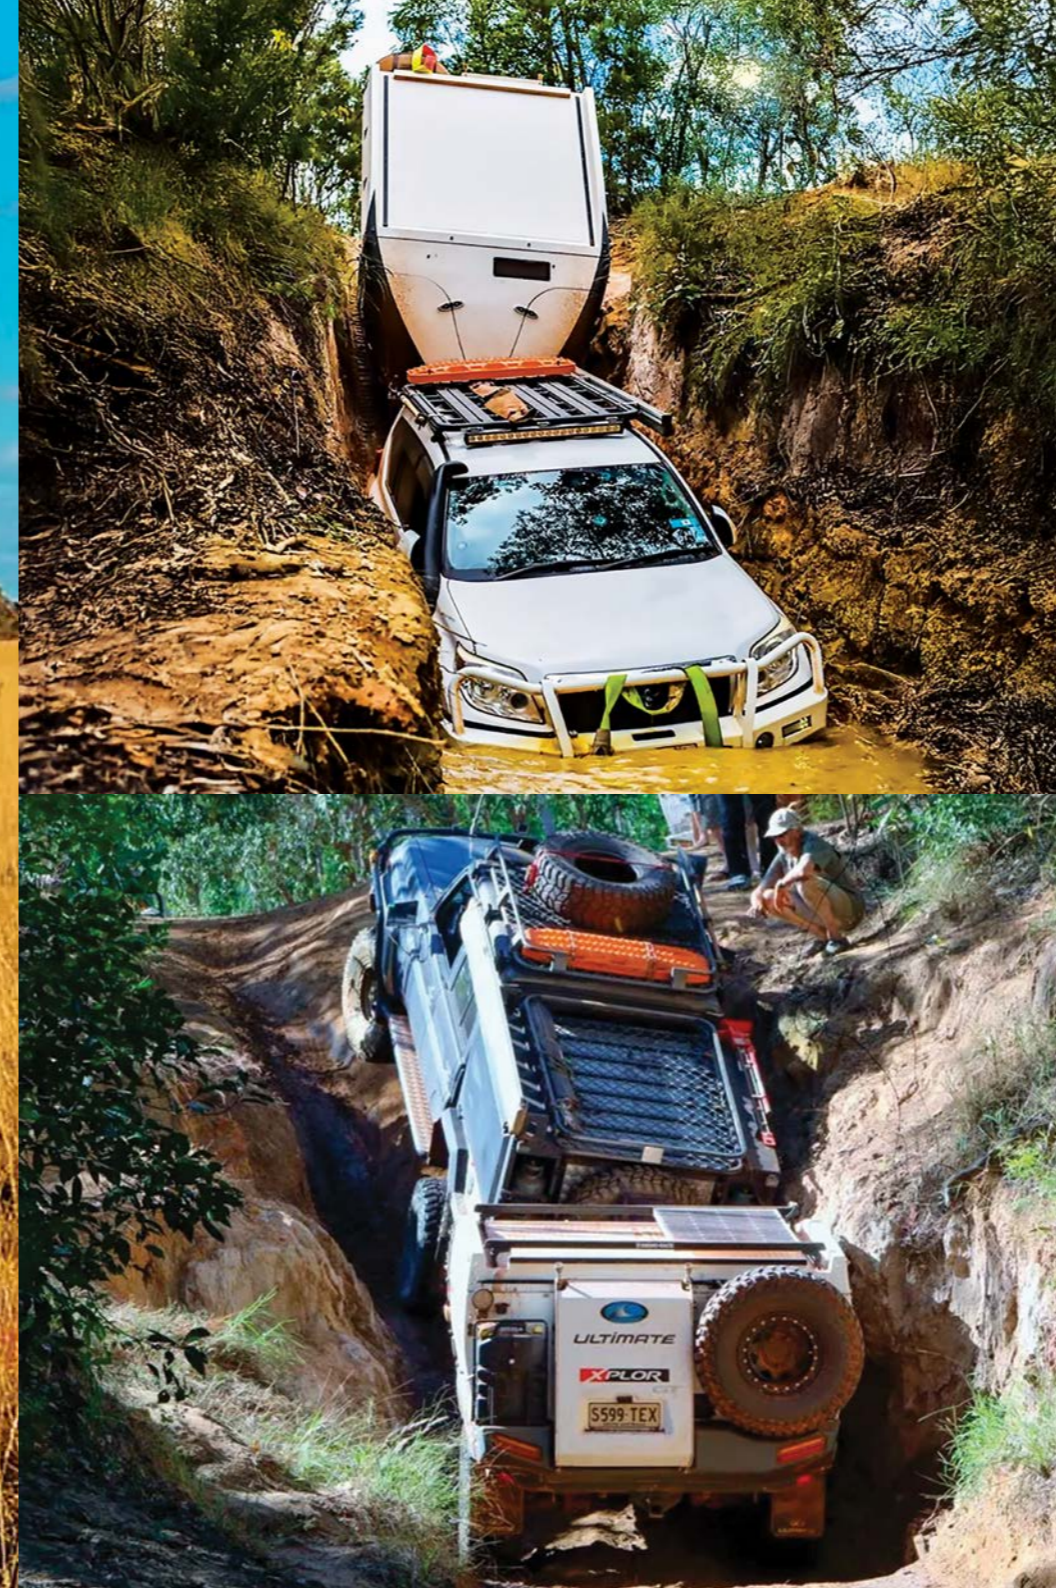

When you choose an Ultimate, you're not just buying a camper, you're joining a community of adventurers who share your love of the outdoors, your respect for Australian craftsmanship and your drive to explore without compromise.

We've spent countless nights under the stars, shared endless stories around campfires and seen firsthand how a journey in an Ultimate can change the way you experience the world. That's why we pour our heart into every camper — so you can go further, stay longer and make memories that last a lifetime.

We can't wait to welcome you into our family of adventurers and see where your Ultimate takes you next. Your journey starts here.

See you out there,
David & Bronwyn Rodgers
Owners, Ultimate Campers

XPLOR GT

– Lightweight Strength for Real Adventure

Who it's for: Adventurers and families who crave compact capability without sacrificing space or comfort.

What it is: The XPLOR GT is where rugged efficiency meets refined comfort — a camper designed to take you further, faster and with total confidence. Lightweight yet strong, with a smart composite body and spacious interior, it's ready to explore the remote places others only dream of.

Indulge in the warmth of LPG/240V hot water and heating, rinse off with a convenient shower hose and prepare meals with ease on the 3-burner stove under a well-lit galley shelf. Lounge in style on plush Macrosuede seating while the standard 360° Awning expands your living space out through the extra-large windows, full length Flexi Door and magnetic flyscreen.

More than just luxurious, the XPLOR GT is also practical and adventure-ready; the 17inch alloy wheels wrapped in BFGoodrich All-Terrain tyres, sturdy DuraGal chassis, Cruisemaster independent coil suspension and large electric brakes combine to offer plenty of ground clearance and a huge payload.

Its aerodynamic design and lightweight build ensure exceptional fuel efficiency without losing the legendary off-road performance Ultimate is known for.

NEXUS

– Luxury That Travels Anywhere

Who it's for: Couples and adventurers who crave comfort without compromise.

What it is: The NEXUS is the camper trailer that sets a new standard for off-road travel. Lightweight, agile and built tough enough to handle Australia's harshest conditions, it combines rugged capability with refined design, letting you explore farther, longer and in style.

Its aerodynamic contours improve fuel efficiency, while the surprisingly spacious interior feels like a high-end escape on wheels. Inside, you'll find a sleek carbon benchtop and table, a plush leather lounge and a powerful lithium battery system with REDARC 2000W RS3 Inverter. A 200W solar array, external Galley BBQ shelf and integrated gas point let you enjoy evenings under the stars, off-grid and on your own terms.

Sitting confidently on bold 18-inch wheels, the NEXUS is designed to turn heads while taking you anywhere you dare to go. It's the ultimate expression of style, strength and freedom — crafted for those who demand more from every adventure.

FROM **\$91,990**

XSCAPE

– Five-Star Freedom, Off the Grid

Who it's for: Explorers who crave five-star comfort with complete independence.

What it is: The Ultimate XSCAPE is the flagship camper that takes off-grid luxury to a whole new level. Winner of Camper Trailer of the Year 2023, as well as Most Innovative and Best Compact, the XSCAPE is built for adventurers who refuse to compromise on comfort, capability or style.

Boasting a 608Ah 12V lithium battery system, 400W solar array and REDARC ALPHA75 BMS & TVMS Rogue control system paired with a REDARC 3000W RS3 Inverter, the XSCAPE gives you unrivalled energy independence wherever your journey takes you. And with up to 250L of total water storage, including an extra 110Lts across dual front tanks, you're able to stay off-grid longer while enjoying the comforts of a five-star escape.
